Making Better Livestock Decisions

StockPlan[®] - Livestock confinement workshop

Funded by the National Action Plan for Salinity and Water Quality

BROKEN HILL 30TH JANUARY 2008

COBAR 1ST FEBRUARY 2008

NYNGAN 5TH FEBRUARY 2008

WALGETT 7TH FEBRUARY 2008

8:30am – 3:30pm

(Please bring your laptop to the workshop, if you have one)

Learn how to develop a livestock confinement area and limit financial losses during drought at a one-day NSW DPI StockPlan[®] workshop.

Work with local producers and NSW Department of Primary Industries livestock officers to discuss and develop a plan suited to your property's needs.

1st half of the day will cover: StockPlan[®] Droughtpack/Impack software program

Hands-on experience with an easy-to-use software program designed to help you:

- Decide the best option for your livestock - feed, sell or agist
- Determine how much feed you will need and how much this will cost
- Determine the stock structure and cash flow effects when selling livestock
- Design a stock containment facility to carry stock through the drought

2nd half of the day will cover:

- **Developing and maintaining a Livestock confinement area**

Catchment Management Authority staff will be at the workshop to explain the full range of assistance measures they have available for land managers.

Spaces limited – Pre-registration essential

Phone 1800 628 422 or complete attached faxback form

Fax (02) 6951 2620 or (02) 69512 565

Course Registration

To reserve a place in the training course: **StockPlan® - Livestock confinement areas**
